The Joint Venture is a company incorporated in Hong Kong with limited liability on 10 December 2025 and shall be owned as to 51% by the Group, 24.5% by WCP, and 24.5% by China Investment Holdings upon the completion of the proposed capital increase of the Joint Venture to be contributed by WCP and China Investment Holdings pursuant to the JV Agreement. USE OF PROCEEDS (cont'd)

As disclosed in the Prospectus, the Company intended to install new facilities at the Jingzhou Primary Station, a gas processing station which acts as a primary station bridging high pressure pipelined gas that is being transmitted from PetroChina to the Group, to enlarge the Group's wholesale customer base and enable the Group to capture both CNG and LNG market. The implementation plan for upgrading infrastructures and facilities of the Jingzhou Primary Station to equip it with LNG processing capacity has been completed during the Year, and the Jingzhou Primary Station is currently able to maintain the pressure and low temperature of LNG, pump and dispense LNG, thereby operating with selling both CNG and LNG.

In relation to the above other implementation plans, the Group has submitted the relevant application and has been in discussion with the government officials on the approval progress. However, due to the demolition of one of the Group's gas refuelling substation located at Shihao Road, Jingzhou, Hubei Province, in July 2021, the Company has been looking for relocation opportunities and will seek approval from the relevant government authorities once the new location is identified. Upon receiving the relevant approval from the government authorities, the Group would carry out feasibility study including environmental impact assessment to further implement the plans. The unutilised net proceeds have been placed with licensed banks in the PRC as at 30 June 2026.

The Directors would constantly evaluate the Group's business objectives and will change or modify plan against the changing market condition to ascertain the business growth of the Group.

SHARE OPTION SCHEME (cont'd)

Notes:

- (1) The Options are valid for five years from the date of grant unless lapsed pursuant to the terms of the Share Option Scheme and may be exercisable during such period provided that the Options are vested.
- (2) The share options are subject to the vesting period as follows:
 - (i) no Options can be exercised within the first 12 months from the date of grant; and
 - (ii) 100% of the Options can be exercised at any time after the expiration of 12 months from the date of grant.
- (3) The share options are exercisable for a period of five years from the date of grant and the fair values of the share options were calculated using the Binomial Option Pricing Model. The inputs to the model were as follows:

	Share options granted on 8 July 2025
Share price at the date of grant	HK\$0.290
Exercise price per share	HK\$0.309
Expected volatility (%)	50.00
Risk-free interest rate (%)	1.94

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may not necessarily be the actual outcome.

- (4) The fair value of the share options granted was estimated at RMB768,000 using the Binomial Option Pricing Model, of which the Group recognised share option expenses of RMB72,000 during the Period (six months ended 30 June 2025: Nil). The fair value of an option varies with different variables of certain subjective assumptions. Any change to the variables used may materially affect the estimation of the fair value of an option.
- (5) Share options which are cancelled/lapsed/forfeited prior to their exercise date will be removed from the Company's register of outstanding share options. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in the share option reserve will be transferred to retained profits/accumulated losses as a movement in reserves.
